General description	(*)A materia de Bases Pedagóxicas da Educación Especial é optativa de 4º curso no plan de estudos da titulación de Grao de Educación Primaria, polo que trata de complementar a formación sobre a conceptualización do eido educativo que trata e dos suxeitos con necesidades específicas de apoio educativo. No mesmo senso, as tomas de decisión, o manexo de recursos e instrumentos axeitados e a interiorización de pautas de intervención educativas más idóneas para facilitar a aprendizaxe van ser os aspectos esenciais que se traballarán nesta materia. Consideramos que o mestre de Educación Primaria debe adquirir unha serie de competencias para poder implementar unha axeitada resposta educativa segundo as necesidades específicas de apoio educativo presentadas polo alumnado tendo presente o marco dunha escola inclusiva.			

Training and Learning Results

Code	
A1	Students have shown to have and understand knowledge in an area of study based on general secondary education, and are at a level in which they can have recourse to advanced textbooks and also to have updated knowledge on the progress made in their field of study.
A2	Students know how to apply knowledge in their work or vocation in a professional manner and have competences that are usually proven through preparation and defence of arguments and problem-solving in their area of study.
A3	Students have the ability to gather and interpret relevant data (usually within their study area) to make judgements that include a reflection on the relevant social, scientific or ethical issues.
A4	Students can transmit information, ideas, problems and solutions to both specialised and non-specialised public.
B1	Know the curricular areas of Primary Education, the interdisciplinary relation between them, the evaluation criteria and the body of didactic knowledge that encompasses the teaching and learning procedures.
B3	Effectively address language learning situations in multicultural and multilingual contexts. Encourage reading and critical appreciation of texts from the various scientific and cultural domains contained in the syllabus.
B4	Design and regulate learning spaces in diversity contexts, to address gender equality, equity and respect for human rights that constitute the values of citizenship training.
B6	Know how primary education schools are organised and the diversity of actions in their operation. Perform functions of mentoring and guidance to students and their families, addressing the singular learning needs of students. Assume that the performance of teaching needs to be refined and adapted to scientific, pedagogical and social changes throughout life.
B9	Appreciate individual and group responsibility for achieving a sustainable future
B11	Know and apply the information and communication technologies in classrooms. Selectively discern audio-visual information that contributes to learning, civic training and cultural wealth.
B12	Understand the role, possibilities and limits of education in today's society and the key competencies that affect the primary education schools and their professionals. Know quality improvement models that can be applied to educational centres.
C1	To understand the learning processes in the 6-12 age range in the family, social and school contexts.
C2	To know the characteristics of these students, as well as the characteristics of their motivational and social contexts.

- C3 To be familiar with and master the knowledge required to understand the personality development of these students and identify malfunctions.
- C4 To identify learning difficulties, report them and cooperate in their treatment.
- C6 To identify and plan the resolution of educational issues affecting students with different abilities and different learning paces.
- C7 To analyze and understand the educational processes that are specific of the 6-12 age range inside and outside the classroom.
- C8 To know the fundamentals of Primary Education.
- C9 To analyze teaching practices and the institutional conditions framing them.
- C15 To know and deal with school situations in multicultural contexts.
- C18 To participate in the planning of the educational project and in the ordinary activities of the school, according to criteria of quality management.
- C19 To know and to be able to apply the basic techniques of research in education and to be able to design innovation projects, identifying assessment indicators.
- C21 To know the functions and play the role of tutor and advisor with families in the 6-12 age range.
- C22 To establish links between the education system and its social milieu and cooperate with the families and the community.
- C61 To acquire practical knowledge about the classroom and its management.
- C62 To know and apply the processes of interaction and communication in the classroom and master the social skills and abilities required to create an atmosphere in the classroom conducive to facilitating learning and respectful coexistence.
- D1 Capacity for analysis and synthesis
- D2 Capacity for organisation and planning
- D3 Oral and written communication in the native language.
- D5 Knowledge of computing related to the field of study
- D6 Capacity for information management
- D7 Troubleshooting
- D8 Decision-making
- D9 Team work
- D10 Work in an interdisciplinary team
- D11 Work in an international context
- D12 Skills in interpersonal relationships
- D13 Recognition of diversity and multiculturalism
- D14 Critical reasoning
- D15 Ethical commitment
- D16 Autonomous learning
- D17 Adaptation to new situations
- D18 Creativity
- D19 Leadership
- D21 Initiative and an entrepreneurial spirit
- D22 Motivation for quality

Problem and/or exercise solving	The students owe to realize a proof of examination of answer cuts in base the theoretical and practical knowledges of the subject. To approve the subject will owe to obtain a *calificación minimum of 1,5 points on 3.	30	A1	B3	D6	
			A2	B6	D15	
			A3		D22	
			A4			

Other comments on the Evaluation

The proposed assessment is a multi-criteria assessment, that is to say, an assessment that accepts assessment proposals in all the activities carried out (theoretical, practical knowledge, assignments, exams, ...) allowing an assessment that involves a comprehensive assessment of the student /a. Criteria to pass the subject:

a) Attending student: an attending student is one who regularly attends classes (minimum 80%). This must participate in the modalities indicated in the Evaluation section and it will be an essential condition to pass the subject to obtain at least half of the score in each of them.

b) Non-attending students: Non-attending students are those who do not attend classes regularly (missing more than 20%). This must take an exam in which all the contents of the subject are included, this will be assessed up to a maximum of 4 points, in order to pass you must obtain a minimum grade of 2 points in this test. In addition, you must carry out a supervised work that will also have an assessment of up to 4 points, in this you must also obtain a minimum of 2 points in order to pass. Elaboration of a topic indicated by the teacher, will have an assessment of 2 points. It will be an indispensable condition to pass the subject, to obtain at least half of the score in each of the sections.

Second call: The parts of the subject passed in the 1st opportunity will not be subject to evaluation in the 2nd, being considered approved, therefore, in that academic year. If you do not pass this last call, the points obtained will not be saved. It responds to the same requirements and tests carried out in the first call.

Exam dates: consult the faculty's website in the "Exam dates" menu

In line with the inclusive nature that characterizes the Faculty of Education and Social Work, this guide may be adapted to meet the specific needs of educational support presented by students enrolled in the PIUNE program (PAT).
