A2 Students know how to apply knowledge in their work or vocation in a professional manner and have competences that are usually proven through preparation and defence of arguments and problem-solving in their area of study.

- A3 Students have the ability to gather and interpret relevant data (usually within their study area) to make judgements that include a reflection on the relevant social, scientific or ethical issues.
- A4 Students can transmit information, ideas, problems and solutions to both specialised and non-specialised public.
- B2 Design, plan and evaluate teaching and learning processes, both individually and in collaboration with other teachers and professionals from the centre.
- B4 Design and regulate learning spaces in diversity contexts, to address gender equality, equity and respect for human rights that constitute the values of citizenship training.
- B10 Reflect on classroom practices to innovate and improve teaching. Acquire habits and skills for autonomous and cooperative learning and promote them among students.
- C3 To be familiar with and master the knowledge required to understand the personality development of these students and identify malfunctions.
- C4 To identify learning difficulties, report them and cooperate in their treatment.
- C5 To know the current approaches and developments that are based on the acquisition of competencies.
- C6 To identify and plan the resolution of educational issues affecting students with different abilities and different learning paces.
- C13 To promote cooperative work and individual work and effort.
- C17 To be familiar with and apply innovative experiences in Primary Education.
- C19 To know and to be able to apply the basic techniques of research in education and to be able to design innovation projects, identifying assessment indicators.
- D1 Capacity for analysis and synthesis
- D2 Capacity for organisation and planning
- D7 Troubleshooting
- D8 Decision-making
- D9 Team work
- D13 Recognition of diversity and multiculturalism
- D16 Autonomous learning

Expected results from this subject

Expected results from this subject		Training and Learning				
			Results			
Identify and schedule in the resolution of educational situations that affect the students with	A2	B4	C4	D2		
different capacities and distinct types of learning.			C13	D7		
			C17	D13		
Identify school demonstrations of difficulties of learning and disorders of the development.		B2	C4	D8		
			C5			
Apply the knowledges purchased to favour the learning and the development in diverse and plural A contexts.		B4	C5	D2		
			C6	D7		
			C19	D8		
				D13		
				D16		
#Analyze of critical form the knowledges *provenientes of the psychology of the education and of	A3	B4	C3	D13		
the development to build an own vision, *integradora and articulated that allow the improvement,		B10	C6	D16		
the learning and the development of the boys and girls with needs specify of educational support.			C17			
Identify the difficulties of learning and the disorders of the development, inform and collaborate in	A3	B2	C6	D1		
the his treatment.	A4			D2		
				D8
